DETAILED ACTION

Response to Amendment

This action is in response to the Applicant's amendment filed on August 2, 2006. Claims 1-32, 35, 36, 39, 42, 43, and 46 have been canceled. New claims 47-59 have been entered. Claims 33, 34, 37, 38, 40, 41, 44, 45, and 47-59 are pending and will be considered for examination.

Specification

The amendment filed February 25, 2006 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

Referring to claims 33, 40, 53:

"payment processor receiving at least the payer's account identifier, the transfer amount, the payee's account identifier upon initiation of a transaction over a first network from payer"

"payment processor transmitting said payer's account identifier, password and said amount to payer's telecommunication carrier provider for authentication"

"payment processor transmitting said payee's account identifier to payee's telecommunication carrier provider for authentication"

"whereby said payment processor is a single point of contact to process transactions between payer and payee..."

"...without said providers communicating with each other over said networks."

Referring to claims 34, 41, and 54:

Art Unit: 3625

"...transaction is made without payer interacting with payee."

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 33, 34, 37, 38, 40, 41, 44, 45, and 47-59 are rejected under 35

U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Referring to claims 33, 40, and 53: These claims recite limitations, which lack written description support in the original application, as follows:

"payment processor receiving at least the payer's account identifier, the transfer amount, the payee's account identifier upon initiation of a transaction over a first network from payer"

"payment processor transmitting said payer's account identifier, password and said amount to payer's telecommunication carrier provider for authentication"

"payment processor transmitting said payee's account identifier to payee's telecommunication carrier provider for authentication"

"whereby said payment processor is a single point of contact to process transactions between payer and payee..."

Art Unit: 3625

"...without said providers communicating with each other over said networks."

Referring to claims 34, 41, and 54: These claims recite limitations, which lack written description support in the original application, as follows:

"...transaction is made without payer interacting with payee."

Allowable Subject Matter

Claims 33, 34, 37, 38, 40, 41, 44, 45, and 47-59 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st paragraph, set forth in this Office action.
